

FOR IMMEDIATE RELEASE

**Redrock Biometrics CEO Hua Yang Ranked a Top 25 FinTech CEO
by Technology Innovators Magazine**

SAN FRANCISCO, May 22, 2020 – [Redrock Biometrics](#), a leading provider of palm-print based biometrics for authentication and identification, today announced that its CEO and Co-Founder, Hua Yang, is included among Technology Innovator Magazines' Top 25 FinTech CEOs of 2020. The list identifies outstanding achievement, game-changing innovation and stellar performance of experts and leaders throughout the financial technology industry.

"At Redrock, we focus on ensuring a collaborative and supportive workplace that empowers our team to thrive personally and professionally while delivering high-performing, secure and safe biometric solutions," said Hua Yang, CEO, Redrock Biometrics. "I'm humbled to receive the validating honor of being named a Top 25 FinTech CEO and I look forward to continuing to work with my team as we push to meet the rapidly growing requirements of the financial technology industry."

Technology Innovators is dedicated to working around the clock to shine a spotlight on top C-level executives and experts across industries from around the business world. The Top 25 FinTech CEOs are selected based on a detailed evaluation of each CEO's career to date, measuring the magnitude of impact on the financial technology industry, demonstrated leadership achievements, organizational strength and company growth, among other factors.

All Technology Innovators awards are carefully tailored to provide a detailed and in-depth analysis of the very best and inspiring leaders from each market, industry, sector, and region.
